Saturn Maple Inc. is a Canadian
registered company located in the
Greater Toronto Area [GTA].

ABOUT US:

Saturn Maple Inc. is a Canadian-registered company based in the Greater Toronto Area [GTA]. With a commitment to innovation, we utilize the latest technologies to address the growing demand for high-quality light gauge steel profiles in the construction industry. Our advanced manufacturing facility ensures precision, durability, and efficiency in every product we deliver.

Our Products

We specialize in manufacturing a wide range of steel framing, trim, and accessories, tailored to meet various construction needs:

- **TRACK** – U-shaped galvanized steel profiles used as horizontal base and top members in drywall framing systems. They hold vertical studs in place and ensure alignment and stability.
- **STUD** – C-shaped galvanized steel profiles installed vertically between tracks, forming the framework for non-load bearing drywall systems.
- **FURRING BAR** – Auxiliary profiles that create an air gap between walls and suspended ceilings or help level surfaces.
- **RESILIENT CHANNEL** – Horizontally installed on drywall to reduce sound transmission, offering vibration damping properties.
- **CORNERBEAD** – L-shaped perforated profiles made of galvanized steel, designed to protect wall corners from impact.

- **CARRYING CHANNEL** – U-shaped galvanized steel profiles used for structural reinforcement inside walls.
- **ANGLE** – L-shaped galvanized steel profiles used in inner wall corners for added stability.
- **WINDBRACE** – Galvanized steel profiles designed to enhance wall stability.

Quality & Customization

All profiles can be customized in various dimensions, sizes, and thicknesses to meet customer specifications. We use high-quality Canadian galvanized steel sheets, known for their exceptional resistance to rust, corrosion, and high strength, ensuring longevity and reliability.

At Saturn Maple Inc., we are dedicated to delivering top-tier steel solutions that meet the evolving demands of the construction industry in Canada.

Our Vision

Our vision is to be a leading provider of light gauge steel profiles in Canada, delivering innovative, high-quality, and sustainable solutions for the construction industry. By leveraging advanced manufacturing technologies and using Canadian-made galvanized steel, we ensure durability, precision, and corrosion resistance in every product. Our goal is to support builders, contractors, and developers with customizable steel framing solutions that meet evolving market needs while maintaining the highest industry standards. Through continuous innovation and exceptional service, we strive to shape the future of construction with reliable and efficient steel products.

OUR PRODUCTS

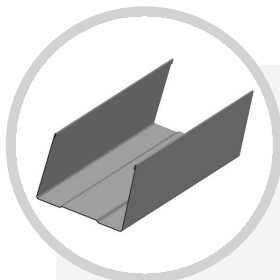

Steel frames non load bear

STUD

C-shaped galvanized steel profiles (light gauge) installed vertically between tracks to form the framing for drywall systems. They provide structural support for gypsum boards and other wall finishes.

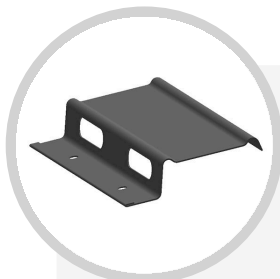

Widths	Flange Size	Gauge	Length
1-5.8"	1-1.4"	25	8'
2-1.2"			9'
3-5.8"			10'
			12'

TRACK

U-shaped galvanized steel profiles used as horizontal base and top members in drywall framing systems. Tracks hold vertical studs in place and provide alignment and structural support for gypsum board installations.

Widths	Flange Size	Gauge	Length
1-5.8"	1-1.4"	25	8'
2-1.2"			9'
3-5.8"			10'
			12'

RESILIENT CHANNEL

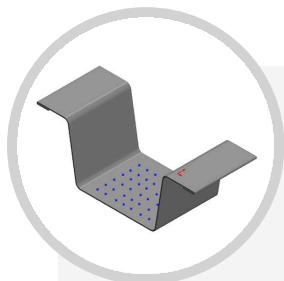

Horizontally installed on drywall to reduce sound transmission, offering vibration damping properties.

Gauge	Length
25	12'

OUR PRODUCTS

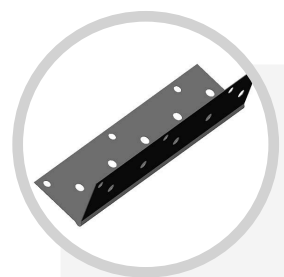

Steel frames non load bear

FURRING CHANNEL

Auxiliary profiles that create an air gap between walls and suspended ceilings or help level surfaces.

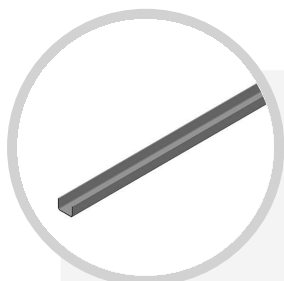

Flange Size	Gauge	Length
7.8"	25	10'
	20	12'
	18	

CORNERBEAD

L-shaped perforated profiles made of galvanized steel, designed to protect wall corners from impact.

Size	Angle	Material	Length
1-1.4" x 1-1.4"	90	Galvanneal	8'
	130		9'
			10'
			12'

CARRYING CHANNEL

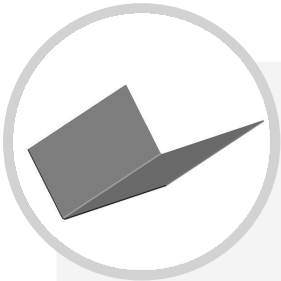

U-shaped galvanized steel profiles used for structural reinforcement inside walls.

Widths	Flange Size	Gauge	Length
1-1.2"	1.2"	18	12'
3.4"		18	

OUR PRODUCTS

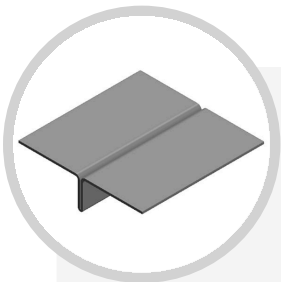

Steel frames non load bear

ANGLE

L-shaped galvanized steel profile

Size	Gauge	Length
1-1.4" x 1-1.4"	25	10'
1-1.2" x 1-1.2"	20	
1" x 2"		
2" x 2"		
3" x 3"		

WINDBRACE

Galvanized steel profiles designed to enhance wall stability.

Widths	Flange Size	Gauge	Length
2"	1.2"	20	11.3'

Saturn Maple Inc. is a Canadian registered company located in the Greater Toronto Area [GTA]. Leveraging the latest technologies, the company aims to meet the construction market's need for high-quality light gauge steel profiles [Steel framing & trim and accessory] by establishing an advanced manufacturing facility in the region.
